WORLD'S FAIR NOTES.

More Than 10,000 Men at Work Getting

the Buildings and Grounds Ready

for the Exposition.

Miss Elizabeth Ney of Hempstead,

Texas, a descendant of Marshal Ney of

France, will execute in marble the

statues of a number of Texas heroes for

exhibition at the World's Fair.

The United States ship Constitution is

about to start for Italy to collect works

of art for the World's Fair. These art

treasures will remain in constant con-

tact of the government, and will be re-

turned after the fair in the same man-

ner as brought.

New York State proposes to exhibit

at the World's Fair complete data, in-

cluding photographs, of all the monu-

ments which have been erected to sol-

diers of that State who served in the

war of the Revolution, the war of 1812

or the war of 1861.

Arrangements have been completed

whereby excursion trains to the World's

Fair, by whatever road they may arrive

in Chicago, will run within the ex-

position grounds and discharge their pas-

sengers there. No transfer of passengers

at any point will be necessary.

More than 10,000 men are now at work

in getting the buildings and grounds

ready for the great exposition of 1893.

On a number of the structures work pro-

ceeds day and night. Wonderful pro-

gress is being made, and it is estimated

all will be completed in time for the

opening.

The pupils of the High School of Sa-

lem, Mass., are preparing an interesting

memorial of that ancient town for the

World's Fair. The amateur photogra-

phers of the school are engaged in the

preparation of a series of photographs of

the many points of historic interest in

the town. These are to be in-

cluded in the illustrations of a handsome

album. The descriptive letter-press of

the book, also the work of the pupils, is

to be neatly written on a typewriter, so

that the whole volume will be literally

the handiwork of the children of Salem.

Members of the North American Tur-

ner Band are making elaborate prepara-

tions for their exhibit at the World's

Fair. They will occupy 4,500 square feet

in the liberal-arts building and 112,500

square feet for outdoor drill, in which

probably 5,000 adults and several thou-

sands of children will participate. In the

covered space the Turner band will have

model classes taught gymnastics in ac-

cordance with their system now in vogue

in their societies and the Chicago public

schools. The exhibition represented by

their commission includes 350 societies,

with a membership of 50,000, of whom

5,000 reside in Chicago.

A very interesting exhibit in the

transportation department of the World's

Fair will be made by the steamship and

railway companies of England. The col-

lection of models of battle ships, yachts,

cruisers, more steamers and merchant

vessels will be complete than was ever

before exhibited. The London and

Northeastern railway will send a com-

plete train of cars, headed by a great

compound locomotive named "Great

Britain." This will afford an opportu-
